

Hi everyone, welcome to our June 2011 newsletter to keep you up to date on what has happend at Moorvue, we hope you enjoy reading it.

WEB SITE. We now have our own web site www.moorvue.com which was created by Nicola with the help of Tony Hook. Our aim is to keep it up dated on a regular basis by the weekly blog page, and to also up load our latest newsletters and photographs. Have a look, and see what you think.

Here is a picture of Kelly who happens to be the student of the month for May. Kelly wanted to look after the Bearded Dragons which she does on Tuesday and Friday. This is a new job for Kelly and she is now an "expert".

We finished off our first batch of hay for the year. We were lucky the weather held off and we managed to bale approx 120 small square bales. We will be using this for animal care.

Much to our surprise and delight two baby chinchilla's were born last week, one a cream colour and one grey. Mum, Dad and babies all are doing fine.

As part of our College course we had to plan and go on a couple of walks, this was very enjoyable and the weather was brilliant.

We have been building a stone wall and repairing a stone hedge. Paul, Ben, Ryan, Nigel and Dave helped to do this.

We would like to welcome Barry and Kelly who are attending Moorvue for an extra day on Tuesdays to join in with the Animal Care group.

Future Plans:

- Grant application. This is still being processed by the officials; we hope to hear some positive news by June 2011.
- We are planning to go to Cudrose air day in July, fingers crossed for some nice weather.
- We have had our planning application passed for a pack house and cold store, work will be started on this when we hear from our grant application

Thank you for reading our latest issue of the Moorvue Newsletter. We hope you found it interesting. If you would like to know more or have any questions then please contact us with the details opposite
